

Pope & Talbot Ltd. Canadian Pulp Operations

Forestry Certification Chain of Custody Policy

Pope & Talbot Ltd. operates both the Mackenzie and Harmac Pulp Mills in the Province of British Columbia. This policy applies to all mill activities that support the production and marketing of our kraft pulp.

1. We will use procedures to facilitate the transparent transfer of responsibly managed wood fibre through the supply chain.
2. We will implement the Chain of Custody Management System, including objectives and controls; to ensure that they meet the minimum requirements of the Standard.
3. We will seek to continually improve our Chain of Custody performance.
4. We will make the Chain of Custody objectives and targets part of business planning and senior management will review annually the progress against them.
5. We will monitor our Chain of Custody performance and will communicate our record to all interested parties.
